

Attention citizens and voters of Saugerties:

I want to briefly discuss an action that I would like to take if elected to Town Board. As many of you may know, I have secondary employment working for a family whose son has developmental disabilities. This work is by far the most rewarding opportunity I could have been presented with.

If elected to the Town Board, I would like to work in a bipartisan manner with my colleagues to help bring an annual Special Olympics event to Saugerties. This would be the perfect way to further promote and ensure inclusivity within our beautiful community. Saugerties not only has the space to hold such an event (thinking specifically Cantine Field), but Saugerties also has the caring residents and business that would support such an event.

Furthermore, this may be a good bridge into my next point, which is Saugerties overall is underutilized. We should be finding innovative ways to utilize our space and bring joy and entertainment to our community. The residents not only deserve more thriving opportunity, but our local businesses do as well. Thank you all in advance for your time and support regarding this endeavor.
