Number one priority 2018 budget—The plain truth is, our finances are in trouble; budgets keep going up and our reserves are almost depleted. We must say “NO” to that which we can't afford and start building our reserve funds.

Taxes—We must collectively (the Board) reduce taxes. When going door-to-door of our citizens, it is the number-one complaint and has been for a long time. We must change this together.

Property Assessment—Complaints from homeowners are listened to, but not being acted on. We must develop policy that helps the homeowners wherever we can.

We need to revamp our in-house purchase order system. The practice of signing bills after the purchase, must be reversed for better control on spending.

We have a great community, a great place to live and raise a family, but we must bring spending and taxes back down to where people can breath a little easier without fear of foreclosure or having to move out of our great community because they can no longer afford to live here. We can do it!

Economic Development—We must move optimistically, but cautiously. We must study and act on development for the good of the whole community, rather than individuals. Development must help reduce taxes, not cost us more in services.
