

We welcome back Ceres to Kings Highway.

It's important to support these kinds of sustainable businesses that provide long-term employment for our residents so they can afford to pay the taxes for all the police, parks, highway and emergency services that are continually escalating at a rate faster than the income ratio.

We cannot support these programs wholly on tourism and service oriented jobs. We, as a community, need to recognize the jobs Ceres, Markertek, J Mullen, NY Drilling (to name a few) and others provide as anchors for our economy and healthy economical growth. Without them we become nothing more than a transient community with a short-term view of the future. So it's important that as a town and a town government, we publicly acknowledge, support and recognize these companies as vital to our economy and to our longevity.

Paul Andreassen,
Town Councilman,

Mike Ivino,
Candidate for Town Councilman
