

SUE SERINO

Putting Public Safety First

“One-party-rule in Albany has emboldened criminals and put them ahead of law-abiding citizens time and again. That hasn't stopped me from standing up against policies that make our communities less safe, like efforts to defund community law enforcement and the disastrous new bail laws that have put hardened criminals back onto our streets.

As a mom, a neighbor, and as your State Senator, I will always put public health and safety first.”¹
